1. Permits, Change, Transfer, Renewal, Sale

The South Crandall Lease Revision Task ID #1945 was received by the Division on 6/14/04 and is currently under review. Task ID #1945 is a response to the deficiencies of Task ID #1903.

2. Signs and Markers

The Mine ID sign is posted at the entrance to the permit area from the forest service road. The sign contains the name, permit ID #, address, and phone number of the operator. All other signs and markers observed during the inspection comply with the coal rules.

4.a Hydrologic Balance: Diversions

Non coal waste was present in the diversion adjacent to the truck loop. This area contained non coal waste on the previous inspection. Arrangements were made to have the materials removed. If this problem continues, enforcement action may be necessary to assure the proper containment of non coal waste items in the approved facility.

4.b Hydrologic Balance: Sediment Ponds and Impoundments

The pond has been re-surveyed from the fall 2003 pond cleaning. The information and maps will be assembled and submitted to the Division, as an amendment, for their review and incorporation into the approved MRP.

4.d Hydrologic Balance: Water Monitoring

First quarter 2004 water monitoring is uploaded in the EDI website. Water monitoring is current.

8. Noncoal Waste

See item 4a of this report.
